"I already have TikTok & Instagram — why do I need a website?"

Fair question. Social media is excellent — **for attention**. But attention you rent is not a business you own.

Social media = renting a stall

- ✗ The algorithm decides who sees you — reach can drop overnight
- ✗ Account restricted or hacked? Your business disappears with it
- ✗ Your profile looks the same as every competitor's
- ✗ Can't take bookings, loyalty points, or structured orders
- ✗ Customers searching Google will not find your TikTok

Website = owning your shop

- ✓ Found on Google by customers already looking to buy
- ✓ Open 24/7 — menu, prices, location, booking, all self-serve
- ✓ Designed only for your brand — instant credibility
- ✓ Booking, rewards and ordering built for your industry
- ✓ Yours forever. No algorithm, no platform rules

The truth: you need both. TikTok brings the crowd. Your website is where the crowd becomes customers — and where serious buyers check whether you're a real business before they spend.

Search intent

Someone typing "klinik gigi near me" into Google is ready to book *today*. Without a website, that customer goes to your competitor.

Trust check

Before a big purchase, Malaysians check: real website? real address? If the answer is "only TikTok", the price you can charge drops.

It works while you sleep

Answers the same 10 questions (price? location? open?) automatically — so your WhatsApp only receives serious enquiries.

Not a template. A website made only for you.

Bespoke design

Built from zero around your brand. No page builders, no recycled themes.

Your own admin panel

Update menu, prices, photos and promos yourself — no developer fees for small changes.

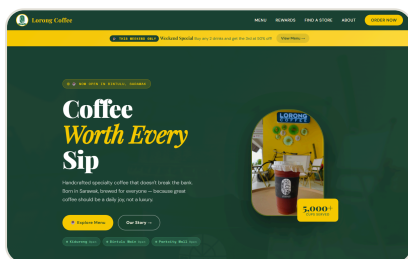

Bilingual & fast

English + Bahasa Malaysia built in. Loads in under a second on mobile data.

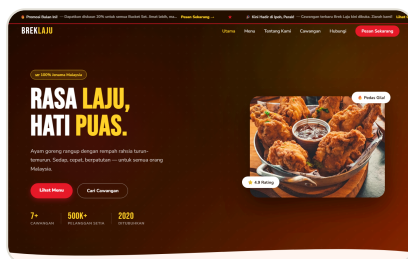

Built for enquiries

Every page guides visitors to one action: contacting you on WhatsApp.

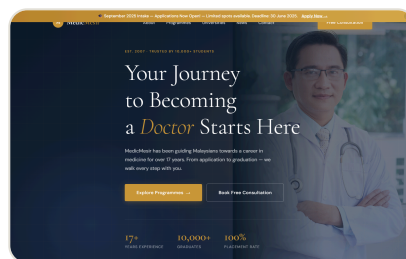

Proof — real working demos, not mockups:

Lorong Coffee — café with customer rewards & multi-branch admin

Brek Laju — fast food with dynamic menu & analytics

MedicMesir — agency with programmes, news & enquiry funnel

Every demo is a complete live website with a working database and admin dashboard.

Visit zed-studio-theta.vercel.app and try the admin panels yourself — the login is pre-filled. Change a price, watch it appear on the site. That's the control you'll have over your own website.

Each industry gets what *it* needs: cafés get loyalty rewards, clinics and barbers get booking, restaurants get menus and promos — designed around how your customers actually buy.

The market, honestly — and where we sit.

OPTION	TYPICAL PRICE (MALAYSIA, 2026)	THE CATCH
DIY website builder	RM 379–479 / month, forever	RM 4,500+ every year, you do all the work, generic template
Freelancer (template)	RM 1,500 – 6,000	Usually a recycled theme; support often ends at launch
Small design studio	RM 3,000 – 10,000	Solid work, priced for bigger companies
Full-service agency	RM 8,000 – 25,000+	Enterprise budgets
ZED STUDIO — launch pricing	RM 990 – 3,990 fixed	Fully custom + admin panel. First 10 clients only.

Landing Page

RM 990

One bespoke page that sells 24/7. WhatsApp buttons, SEO, ~1 week.

Business Website

RM 2,190

Up to 6 pages, EN+BM, gallery, FAQ, Google Maps, 2–3 weeks. **Most popular.**

RM 3,990+

Everything + database, booking/rewards, customer accounts, admin dashboard.

Also: **Website Redesign** from RM 1,490 · Domain & DNS setup RM 150 + domain at cost · Care Plans from RM 79/month. All prices fixed and agreed in writing before work begins — no hourly billing, no surprises.

How it works

01

Discovery

Free WhatsApp chat. Fixed quote, no obligation.

02

Design

Homepage first — refined until you love it.

03

Build

Full site + your content + admin dashboard.

04

Launch

Live on your domain. Keys handed over.

Ready when you are.
