3 • Payment

1. **50% deposit** to begin work; **50% balance** before the website goes live on the Client's domain. Bank transfer or as agreed in writing.
2. The price above is **fixed** for the scope in Section 2. Work outside that scope is quoted separately before it begins — no surprise charges, ever.
3. Care Plans are month-to-month and can be cancelled anytime with 14 days' notice.

4 • What's included

1. Bespoke design (no templates), mobile-first, English/Bahasa Malaysia as per package, and the features listed in Section 2.
2. **Up to 3 rounds of revisions** during design and build. Further rounds are quoted as extra scope.
3. **14 days of free fixes** after launch for anything not working as agreed.
4. An admin dashboard and a handover walkthrough, where the package includes one.

5 • What the Client provides

1. Content — logo, photos, text, prices, business details — within 7 days of request. Delays in content shift the launch date, not the price.
2. Timely feedback (within 3 working days) at each review step.

6 • Ownership & the boring-but-important parts

- 1. On full payment, the Client owns the website, its content, and the domain (registered in the Client's name).
- 2. Zed Studio may show the finished website in its portfolio unless the Client opts out in writing here: ☐ *opt out*.
- 3. Either party may cancel before completion: work completed to date is billed proportionally against the deposit.
- 4. If the Domain & DNS service is selected, Zed Studio manages the domain for RM 150/year (domain cost, renewal and DNS care included); the domain remains registered in the Client's name at all times. The Client may take over self-management at any renewal with no penalty.
